The coronavirus pandemic has affected workplaces across the globe. Governments are scrambling to adopt measures to help stem the spread of the virus, while recognising an employer's need to stay in business.

We have created a chart to outline the current state of the law in 19 European countries with our international colleagues. This chart helps employers keep track of operations in Europe and covers:

- The varying work and travel restrictions
- School closures
- Sick pay obligations
- Employer subsidies
- Ability to reduce employees' salary and hours

- Authority to require employees to work from home
- Unemployment support
- Special dismissal protections
